Natural additives for sustainable building: Plant-based solutions for a sustainable development

Thanks to more than 80 years of experience servicing the building industry, Roquette is able to provide its customers with state-of-the-art solutions that meet their needs.

Our application laboratories and our experts are at your service to offer you application advice and help with project implementation.

- > Are you looking for sustainable formulation solutions?
- > Would you like to increase the workability of your products?
- > Would you like more control over the setting time of your products?
- > Do you aim to increase the final mechanical properties of your formulations?
- > Do you want to reduce the amount of mixing water needed in your formulations?

Thanks to our expertise, we can offer you solutions that will allow you to improve your formulations by increasing the workability, reducing need for water or even bring better compressive strength. Moreover make your product formulations more sustainable!

		Sodium gluconate*	Glucose syrup	POLYSORB®
Plasticizer	Water reduction, easy handling	●	○	○
Set retarder	Longer handling in difficult conditions	○	●	●
Mechanical properties improvement	Less water and gas porosity	●	●	●
	Better compressive strength at 28 days	●	●	●
	Improved durability	●	●	●

● main property ○ strong additional property ● additional property

* available in powder or liquid form

- Plant-based raw materials
- Plasticizer

- Adjusted setting time
- Better compressive strength
- Better durability
