Plant-based alternative solutions:

Plant-based solutions for a sustainable development

Thanks to more than 80 years of experience in the starch industry, Roquette is able to provide its customers with state-of-the-art gluing solutions that meet their needs (bottle labelling, paper bags, core winding, corrugated board,...).

Our well-equipped application laboratories (analytical and rheological analysis, formulation and mechanical properties) and our experts are at your service to offer you application advice and help with project implementation. By combining many years of practical experience with a comprehensive understanding of products and processes, Roquette can help you optimize formulations and develop new products or new opportunities.

- > Are you looking for plant-based formulation solutions?
- > Do you try to replace casein?
- > Are you developing glues that must resist to pasteurization?

Thanks to our expertise, we can help you to formulate efficient environmentally friendly bottle labelling glues. Thanks to their original properties, our food grade high performance starches can be used not only on dry, but also on wet material. The price stability of starch derivatives will insure you against casein market fluctuations also providing you with good technical performances in terms of pot life and application properties.

> Our solutions

		TACKIDEX® (dextrins)	Starch M-G & HI-CAT®	Sodium gluconate	TACKIDEX® (modified starches)	NEOSORB®
Formulation auxiliary	Plasticizer	●	●	●	●	●
	Texture shortener	●	●	●	●	●
Gluing power <small>(can be removed in alkaline media)</small>	Low line speed <small>(5,000 to 20,000 bottles per hour)</small>	●	●	●	●	●
